

# MAKING LIVING WILLOW SCULPTURES

## A STEP-BY-STEP DVD

by Steve Pickup

Living willow sculptures are amazing structures that are alive. And now, using this hands-on guide, you can learn to make your own willow structure!

Steve Pickup has spent the last 10 years designing and making living willow sculptures for public spaces and private clients. In this DVD he imparts his knowledge and teaches his willow weaving skills clearly and concisely.

Using his UNIVERSAL WEAVE technique he takes you step-by-step through the process of making an arch and fedge (living willow fence/hedge). Once you have mastered this simple and effective technique it can be used to make many different living willow structures, from a play dome for the children, to a cool shady arbour for whiling away hot summer days. All this without any digging.

In this interactive DVD Steve take you through the process of making a living willow structure, showing you; how to choose an appropriate location; preparation of the site; how to plant the willow rods; the different weaving techniques, and how best to care for your finished structure.

Extra features on the DVD:

\* Making other structures    \* Tools and materials    \* Gallery

ISBN 95525 320 1    RUNNING TIME: 1 hr. 15. mins. plus 20 min. of extras

CODE MLW    PRICE £20.00 + p&p
